What is the Get Active Queensland Accreditation Program?

GAQAP provides teachers, school sport volunteers, tertiary and senior secondary school students throughout Queensland with FREE training that can ultimately lead to recognised accreditation in coaching, officiating and sports first aid.

Some courses require pre-requisites and completion of assessment tasks for the awarding of formal accreditation. Fees for accreditation may apply for non-school sport volunteers. Registration is limited to one sport only as each course is approximately six hours in length.

Register now

Registrations close on Monday 12 September 2016.

If you register and do not attend on the day, without any notification to the Program Coordinator, your registration may be hindered for future courses.
