

# Number Walls

**Big Idea:** Number Facts

**Suits:** Years 3-6

**Materials:**

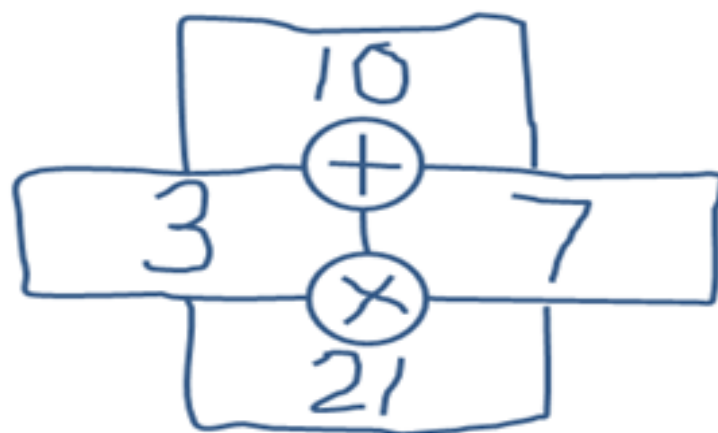

Mini white boards  
pens and erasers

**Instructions:**

## A: Whole Class Modelling

- Students draw a blank number wall (see above)
- Instruct students to:
  - choose two single-digit numbers and write them in the middle row of the wall.
  - add the numbers and record the sum above
  - multiply the numbers and write the product below.

- Students now erase one of the starting numbers and replace it with a question mark to create a puzzle board ready to share.
